

LAURENTIU IOAN LUPSA

Full-Stack Software Engineer · TypeScript · React · Next.js · NestJS

Cluj-Napoca, Romania +40 757 045 707 lupsalau@gmail.com LinkedIn GitHub Portfolio

PROFESSIONAL SUMMARY

Full-Stack Software Engineer experienced in building production-oriented web applications with TypeScript, React, Next.js, NestJS and PostgreSQL. Developed systems ranging from retail analytics dashboards to booking and property-management platforms, payment workflows and AI-assisted developer tools. Strong focus on backend architecture, relational data modelling, API design, testing and maintainable software.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, Java, SQL, C/C++, PHP
Frontend	React, Next.js, Angular, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend & APIs	Node.js, NestJS, REST APIs, authentication, role-based access control
Data & AI	PostgreSQL, pgvector, Prisma ORM, MySQL, SQL Server, OpenAI API, RAG, embeddings
Testing & Tools	Vitest, Playwright, Docker, Git, GitHub Actions, Vite
Cloud & Integrations	Vercel, Render, Supabase, Stripe, Resend

PROFESSIONAL EXPERIENCE

Software Developer Intern (Full-time) · PingPrice Aug 2025 – Oct 2025
Brussels, Belgium

- Developed Python/Reflex dashboards for sales analytics and product-performance monitoring across multiple European retail markets.
- Integrated REST API data into reusable analytical interfaces and optimized application responsiveness.
- Collaborated with product, design and backend teams to deliver maintainable, user-focused dashboard functionality.

Frontend Developer (Full-time) · ZeceLaExamene Jan 2024 – Apr 2024
Cluj-Napoca, Romania

- Developed and optimized responsive interfaces for an online learning platform using React and TypeScript.
- Created reusable UI components and performed cross-browser and cross-device testing.
- Worked closely with design and backend teams to translate product requirements into functional interfaces.

Frontend Developer Intern · Thunder Jul 2023 – Oct 2023
Cluj-Napoca, Romania

- Built and maintained reusable frontend code with React, Angular, JavaScript, HTML and CSS.
- Translated design and product requirements into functional web interfaces and used Git for version control.

IT Teacher (Part-time) · ZeceLaInfo Nov 2021 – Jul 2022
Cluj-Napoca, Romania

- Taught object-oriented programming, C/C++ and algorithms; created educational materials and mentored students.

LAURENTIU IOAN LUPSA

Selected Engineering Projects

PROJECTS

Code Documentation Assistant · [GitHub](#)

Next.js · TypeScript · PostgreSQL · pgvector · Prisma · OpenAI API · Docker

- Built a RAG-based application that indexes public GitHub repositories and answers codebase questions with verifiable file and line references.
- Designed an explicit ingestion and retrieval pipeline using embeddings, vector similarity search and validated structured LLM outputs.
- Implemented repository isolation, transactional index replacement, CI and unit, integration and end-to-end testing with Vitest and Playwright.

Sunshine Resort · [Live](#) · [GitHub](#)

Next.js · NestJS · TypeScript · PostgreSQL · Prisma · Stripe

- Developed a bilingual booking and property-management platform for a boutique resort with 8 apartments across 4 accommodation categories.
- Implemented real-time availability, dynamic pricing, multi-room reservations and an administrative PMS.
- Integrated Stripe Checkout and webhooks, transactional email and automated reservation lifecycle workflows; deployed with Vercel, Render and Supabase.

Website Technologies Scraper · [GitHub](#)

TypeScript · HTTP analysis · Browser automation

- Built a multi-stage technology-detection engine combining HTTP responses, rendered browser sessions, network requests and JavaScript signals.
- Processed 200 domains, successfully analyzing 186 and producing 3,112 evidence-backed detections across 404 unique technologies.
- Designed traceable results with confidence scores, matched patterns and evidence sources.

AI Receptionist for Clinics

Next.js · NestJS · PostgreSQL · Prisma

- Built a full-stack clinic-management SaaS with authentication, role-based access control, appointment scheduling and doctor availability management.
- Designed the REST API and business logic for clinics, users and appointments, preparing the platform for AI-powered voice-agent integration.

Top Sidra Expert · Client Website · [Live](#)

React · TypeScript · Vite · SEO

- Designed, developed and deployed a responsive production website for a construction and transport company.
- Implemented SEO optimization, contact forms and business presentation pages, and configured deployment and domain infrastructure.

EDUCATION

BSc in Computer Science Sep 2021 – Jun 2026

Babeş-Bolyai University · Cluj-Napoca

Relevant coursework: Artificial Intelligence, Web Programming, Databases, Software Engineering, Computer Networks.
