LAURENTIU IOAN LUPSA

FULL-STACK DEVELOPER

PROFESSIONAL SUMMARY

Full-Stack Developer with experience building complete web applications from frontend to backend. Strong understanding of software engineering principles, web architecture and database design. Capable of developing scalable applications using modern frameworks as well as implementing the same functionality using core JavaScript, HTML, CSS and backend technologies without framework dependencies. Passionate about writing clean, maintainable code, solving complex problems and continuously improving technical skills. Recently graduated with a Bachelor's Degree in Computer Science from Babeş-Bolyai University.

WORK EXPERIENCE

Reflex Developer (Full-Time, Intern) | PingPrice, Brussels

August 2025 – October 2025

- Developed business dashboards using Reflex (Python).
- Built interfaces for sales analytics and product performance monitoring across multiple European retail markets.
- Built reusable UI components and optimized application performance.
- Worked with REST APIs to integrate data into dashboards.
- Collaborated with design and back-end teams to deliver responsive, user-friendly solutions.

Front End Developer (Full-Time) | ZeceLaExamene, Cluj-Napoca

January 2024 – April 2024

- Developed and optimized responsive interfaces for an online learning platform using React, TypeScript, HTML5 and CSS3.
- Collaborated with design and back-end teams.
- Created reusable components and intuitive UI.
- Conducted cross-browser and cross-device testing.

Front End Developer (Internship) | Thunder, Cluj-Napoca

July 2023 – October 2023

- Built and maintained reusable frontend code.
- Translated requirements into functional web interfaces.

IT Teacher (Part-Time) | ZeceLaInfo, Cluj-Napoca

November 2021 – July 2022

- Taught OOP, C/C++ and Algorithms.
- Created educational materials.
- Mentored students.

PROJECTS

AI Receptionist for Clinics

- Built a SaaS platform using Next.js, NestJS, PostgreSQL and Prisma.
- Implemented authentication, appointment scheduling and role-based access control.

TOP SIDRA EXPERT

- Developed and deployed a production business website using React, TypeScript and Vite.
- Implemented SEO optimization and responsive design.
